Dear [redacted]

Re: You are entitled to the information you requested - 2022-00335-HEA

The Department of Health and Wellness received your application for access to information under the *Freedom of Information and Protection of Privacy Act* (the Act) on February 20, 2022.

In your application, you requested a copy of the following records:

> *Please updated the information received under request 2021-02146-HEA for the date range of November 1, 2020 to February 20, 2022. (approximately 4 month period vs the 6 month period used in request 2021-02146-HEA)*

Table 1: Summary of COVID-19 deaths by age group, November 1, 2020 – February 20, 2022

A reader to the site recently brought up a freedom of information request release related to "Covid deaths". Nova Scotia is a province that releases their FOIs after they are sent off — with personal information redacted, of course.

There were zero (0) so-called "Covid deaths" in the period of November 1, 2020 until February 28, 2021.

By contrast, there were 105 so-called "Covid deaths" in the period of November 1, 2021 until February 28, 2022. This would be the period where vaccine passports were implemented.

Of course, this "virus" isn't real, and germ theory is a hoax. That being said, it's pretty interesting when Nova Scotia's own data shows that there are more deaths resulting well after the vaccine release. Even their information would lead reasonable people to question the side effects of these shots.

Deceased case

- A probable or confirmed COVID-19 case whose death resulted from a clinically compatible illness, unless there is a clear alternative cause of death identified (e.g., trauma, poisoning, drug overdose).
- A Medical Officer of Health, relevant public health authority, or coroner may use their discretion when determining if a death was due to COVID-19, and their judgement will supersede the above-mentioned criteria.
- A death due to COVID-19 may be attributed when COVID-19 is the cause of death or is a contributing factor.

The definition of a “Covid death” has also been covered on this site. It amounts to nothing less than medical and scientific fraud.

And if you haven’t seen Christine Massey’s work with Fluoride Free Peel, go do that. There are some 200 or so FOIs showing that no one, anywhere in the world, has ever isolated this “virus”. It’s never been proven to exist. There’s no point having a discussion on what treatments are beneficial, until the existence of this is demonstrated.

sad that you had to make a disclaimer for the “no virus” cult
